LOST

The Seed Pod has lost a good advertiser in our friend and member Mr. Ed Brown of Goochland Nurseries, Inc.,

Ed tells us that they no longer do much business in Hibiscus. They are only propogating a very few varieties to grow on own root. They have discontinued grafting Hibiscus. He has asked for names of some nurserymen that are grafting the old standby varieties and the newer varieties so that he may forward his inquiries on to them. If you are interested please drop Mr. Ed. Brown, Goochland Nurseries, Inc., Pembroke, Florida a note.
